

“We chose Modera Intranet to give the Arco Transport team better, and faster, decision-making abilities.”

Mr. Peeter Kuusik | CEO | Arco Transport Ltd.

» **Web solutions. Saving you time, making you money. Simply.™**

Modera Intranet is a secure, easy to use, web-based system that will save your business time, effort and ...paper!

Modera Intranet is suitable for any company that wishes to improve its internal communications, collaboration and overall productivity.

Benefits for YOUR Business

★ Save money and help the environment too

Using the Modera Intranet means a huge reduction in the amount of paper your business will use.

★ Easy

Easy to set up and easy to use. Modera Intranet was designed to be “super simple”. Point, click, done!

★ Create community

Modera Intranet makes internal communications easier so people will ‘connect’ more. More dialogue leads better productivity and a happier workforce.

★ Better decision making

Because your people can share ideas, solutions and

problems in one space, management can make even more informed business decisions.

★ Easy to upgrade

Modera Intranet grows as you grow and is extremely flexible with its customizable, modular architecture.

★ Strong, fast and secure

Modera Intranet is designed to handle the needs of the largest and most demanding and complex partner and client communications projects.

★ Save money..again!

Modera Intranet costs much less than other CMS systems of a similar quality. Check the prices, and see for yourself.

Modera is an international IT company with a network of partners who share the same high standards as our clients expect and deserve. Modera was formed in 2000 to meet the needs of companies who require high quality commercial internet solutions at sensible prices.
