

“Nissan requires global standard, high quality solutions with local support in each country. Modera and their Partner Network gave us that.”

Mr. Indrek Poolak | Marketing Specialist | Nissan Baltics Ltd.

» **Web solutions. Saving you time, making you money. Simply.™**

Modera Webmaster is an easy to use system that allows your non-technical users to create, develop and manage your commercial website in a simple and secure way.

Modera Webmaster content management system is suitable for all sizes of companies because it is scalable and integrates with your current IT systems.

Modera Webmaster content editor

Benefits for YOUR Business

★ Improved customer satisfaction

Modera Webmaster creates better user experiences through your ability to provide fresh, consistent, high quality information.

★ Higher quality content

Because Modera Webmaster is so easy to use, more people in your business can create great content. More involvement leads to higher quality information for your customers and partners.

★ Consistent Branding

Modera Webmaster makes it easy to define, manage and maintain your corporate identity throughout your website.

★ Fast communications

With Modera Webmaster you can edit, create and publish new content in just a few minutes.

★ Save time and money

Using Modera Webmaster means you do not need your agency or webmaster every time you want to add or change content. So your people can publish faster and cheaper than ever before.

★ Easy to upgrade

Modera Webmaster grows as you grow and is extremely flexible with its customisable, modular architecture.

★ Strong, fast and secure

Modera Webmaster is designed to handle the needs of the largest and most demanding and complex partner and client communications projects.

★ Saving money..again!

Modera Webmaster costs much less than other Content Management systems of a similar quality. Check the prices, and see for yourself.

Modera is an international IT company with a network of partners who share the same high standards as our clients expect and deserve. Modera was formed in 2000 to meet the needs of companies who require high quality commercial internet solutions at sensible prices.
